

Think you may have Strep Throat?

Book an appointment with a participating
pharmacy for an assessment:

www.pans.ns.ca/cppcc

*Assessing your condition
is as easy as 1,2,3...*

1. Pharmacist will ask questions and perform a physical exam to determine need for further assessment/care.

2. If a test is needed after assessment, pharmacist will conduct a throat swab and process it in pharmacy.

3. **If throat swab is positive** for Group A Strep, pharmacist will prescribe appropriate treatment.
